The agenda

Introductory Seminar on Atmospheric Corrosion

MARCH 5, 2025

@ Cromocol in Borås, Sweden

INTRODUCTION TO CORROSION TESTING

- A comprehensive overview of why corrosion testing matters and how it impacts material performance.

FUNDAMENTAL CHEMISTRY OF CORROSION

- Dive into the chemical processes behind corrosion, including an introduction to the principles of electrochemical corrosion and its role in material degradation.

VARIOUS TEST METHODS

- Explore key testing methods, when to use them, and what they reveal about material durability.

SAMPLE PREPARATION AND EVALUATION

- Learn how to prepare samples effectively and evaluate results with accuracy.

CHAMBERS, TOOLS, AND ACCESSORIES

- Discover the essential equipment for corrosion testing, including chambers and tools that enhance reliability and precision.

This seminar is the perfect starting point for professionals new to corrosion testing or those wanting a refresher on the basics. Don't miss this opportunity to deepen your knowledge and connect with industry experts.

Spaces are limited – sign up today!

Info and registration

Introductory Seminar on Atmospheric Corrosion

SEMINAR VENUE

Cromocol Scandinavia AB
Åsboholmsgatan 16
504 51 Borås, Sweden

SEMINAR HOURS

March 5, 2025, 9:00 to 15:30

PARTICIPATION FEE

Free of charge, including lunch and refreshments.

LANGUAGE

The seminars will be held in English.

ACCOMMODATION

If you need accommodation, we recommend:

- [Quality Hotel™ Grand, Borås](#) →
- [Scandic Hotels™ Plaza Borås](#) →
- [Comfort Hotel Jazz, Borås](#) →

CONTACT

Questions are answered by Cromocol.
+46 (0)33 23 50 00 or info@cromocol.se

REGISTRATION

- Register from the link or QR below.
- The last day for registration is February 29.
- The registration is binding.
